

Take a look at a snapshot of the average lupus experience among the thousands of lupus warriors in **RAY: Research Accelerated by You**. RAY is an online lupus research platform where people with lupus and caregivers share information about their lupus experience to help researchers better understand the disease and accelerate the development of new treatments.

We invite people living with lupus and their caregivers to join RAY, see how your experiences compare to others with lupus and take the important step to help advance lupus research. Visit Lupus.org/RAY to learn more.
