!lupus	Lupus is one of the cruelest, most mysterious diseases – an unpredictable and misunderstood autoimmune disease that ravages different parts of the body, causing the immune system to attack healthy tissue instead of fighting infections. It is difficult to diagnose, hard to live with, a challenge to treat and can be fatal. Lupus strikes without warning, affects each person differently, and has no known causes or cure.

!help	A lupus diagnosis can be devastating and life-changing. The Lupus Foundation of America is here to listen, to give caring support and to provide answers, through trustworthy, reliable and high-quality resources that provide emotional support and clear, accurate health information. Find resources, programs and support here: https://www.lupus.org/living-with-lupus .
!donate	Your support helps provide hope for the estimated 1.5 million Americans and at least 5 million people worldwide living with lupus – 90% of whom are women. To make a donation, click here! [Insert Your LINK]
