

ASK THE DOCTORS your questions on the Coronavirus and Lupus

In order to assist you in these troubling and uncertain times, we ask you to submit your questions on the Coronavirus and how it affects or will affect you, the lupus patient. We will then submit your questions to doctors who can best answer them, and will arrange for the doctors to video their responses.

Please submit your questions to TBA and we will advise you when and where the videos will be aired.

Please stay safe, and do not worry, this will all work out, and remember, "You are not alone."
